PROFESSIONAL SUMMARY

Master of Data Science student at Macquarie University with a Bachelor of Science in Computer Science and Information Technology. Experienced in cleaning, analysing and preparing data with Python, Pandas, NumPy and SQL, and in building full-stack web applications with React, Node.js and MongoDB. Completed three technical internships and seeking an entry-level data analyst or junior developer role in Sydney.

TECHNICAL SKILLS

Programming: Python, SQL, R, JavaScript, C

Data Analysis: Pandas, NumPy, Data Cleaning, Data Validation, Exploratory Data Analysis, Statistical Analysis, R Markdown, Excel

Databases: MySQL, PostgreSQL, MongoDB, Relational Database Design

Web Development: React.js, Next.js, TypeScript, Node.js, Express.js, REST APIs, HTML, SCSS, Tailwind CSS, Figma

Tools: Git, GitHub, Jupyter Notebook, VS Code

EXPERIENCE

Python & Data Science Intern Jul 2025 – Sep 2025
Panacea Solutions

- Cut repetitive manual work in data preparation by building Python scripts that automated cleaning and formatting tasks.
- Improved data accuracy and consistency by validating, cleaning and transforming datasets with Pandas and NumPy.
- Reduced the risk of reporting errors by writing SQL queries to extract, filter and join data from relational databases.

React Developer Intern Apr 2025 – Jun 2025
Ripplebytes, Kathmandu, Nepal

- Helped deliver an e-commerce website by building responsive product, detail and cart pages in Next.js, React and TypeScript.
- Created reusable UI components and integrated pages with backend APIs to display dynamic product data.

Frontend Web Developer Intern Dec 2024 – Feb 2025
Laxmi Soft Pvt. Ltd., Kathmandu, Nepal

- Converted Figma designs into fully responsive HTML and SCSS pages for three company projects: Hotel, Evaluation and Municipality Management Systems.
- Built dashboards, forms and navigation components and tested them for cross-device compatibility.

PROJECTS

Doctor Appointment Booking Platform (MERN Stack) 2024

- Built a full-stack booking app with patient and doctor dashboards, bookings, reviews and JWT login using React, Node.js, Express and MongoDB.

E-Gaming Marketplace (REST API and Front End) 2024

- Developed a REST API with Node.js, Express and MongoDB for products, categories, brands, orders, reviews and users, with image uploads.

EDUCATION

Master of Data Science Expected Jun 2028
Macquarie University, Sydney, NSW
Statistical Methods for Data Science · Database Systems · Python Programming

Bachelor of Science in Computer Science and Information Technology 2024
Himalaya College of Engineering (Tribhuvan University), Nepal
Data Structures and Algorithms · Database Management Systems · Artificial Intelligence · Software Engineering

CERTIFICATIONS

- IBM Data Science Professional Certificate (Coursera) – In progress
- Python and Data Science Training
- MERN Stack Development Training
